

SKILLS REGISTER JANUARY 2020

Birds and Wildlife	Advice on wildlife and particularly birds.
Conservation	Conservation work - Help with/advice on
Event Organising	Organising public events
Events	Promoting events e.g. flyers, posters, social media
First Aid	First Aid - Advice on
Funding	Funding bids - successful submission of funding bids (and where to look for them)
Historian	Landscape historian can offer advice on the historic landscape within Kirklees parks. Most parks have elements of history which can range from being features associated with former features of the park to landscapes associated with the pre-park which can go back to the prehistoric period.
Historian	Help and advice across the district could be offered on recognising historic landscapes of all periods, how they can be best recorded and the various sources (documents, maps etc) that can be useful.
Management	Running an organisation (not a charity) e.g. meetings, agendas, minutes, AGM, annual report.
Risk Assessments	Risk assessments for events
Talks	Keen Birder and photographer so can help groups out with both site surveys and supply of photographs if needed. Several groups around Denby Dale have benefited from a supply of photographs for information boards either free or at a cost just to cover expenses. Photos would mostly be various bird, butterfly, dragonfly, wildflower species etc., but am happy to take some site photographs as well.
Talks	Talks to groups about wildlife. Specialist areas, these being Willow Tits and Twite. Both of these bird species are residents in the Kirklees area, and are of special conservation interest due to massive decline and low numbers of breeding pairs.
Walks	Discover Nature Walks
